The Worship Wheel

Score yourself on a scale from 1-10 in each area of the Worship Wheel. Then connect each score with a line so that it forms a wheel like the image below:

That will show you where your weak points are so you can improve those areas first in order for a “smoother ride” when it comes to your worship guitar skills and playing in general.

Here’s a guide to use when it comes to scoring yourself:

FB: FRETBOARD

- 1.** You don’t know where to find any notes.
- 10.** You know the fretboard inside out with your eyes closed.

HM: HARMONY

- 1.** You only know a small handful of chords.
- 10.** You know multiple voicings in multiple keys and can easily play awesome progressions on the spot without thinking.

ML: MELODY

- 1. You don't know how to play melodies, lead or fills over chord progressions.
- 10. You can easily play perfect fit melodies, lead and fills over any chord progression.

RH: RHYTHM

- 1. You struggle to play in time and find the groove.
- 10. Your rhythm guitar playing is solid, in time and very musical across a range of different styles and tempos.

TO: TONE

- 1. You struggle to dial in tones that work well with modern worship.
- 10. Your tone is on point and you have a wide range of tonal options available in an instant.

TH: THEORY

- 1. You don't really understand the basics of music and don't quite know "what" you're playing most of the time.
- 10. You have a solid understanding of the inner workings of music such as chord and scale construction along with the Nashville numbering system. You can also apply the theory in an instant without thinking.

TE: TECHNIQUE

- 1. You have a constant fear of messing up because of poor technique.
- 10. You trust your technique and can confidently play with total accuracy and ease. As a result your tone flows from your fingers.

AU: AURAL/EAR TRAINING

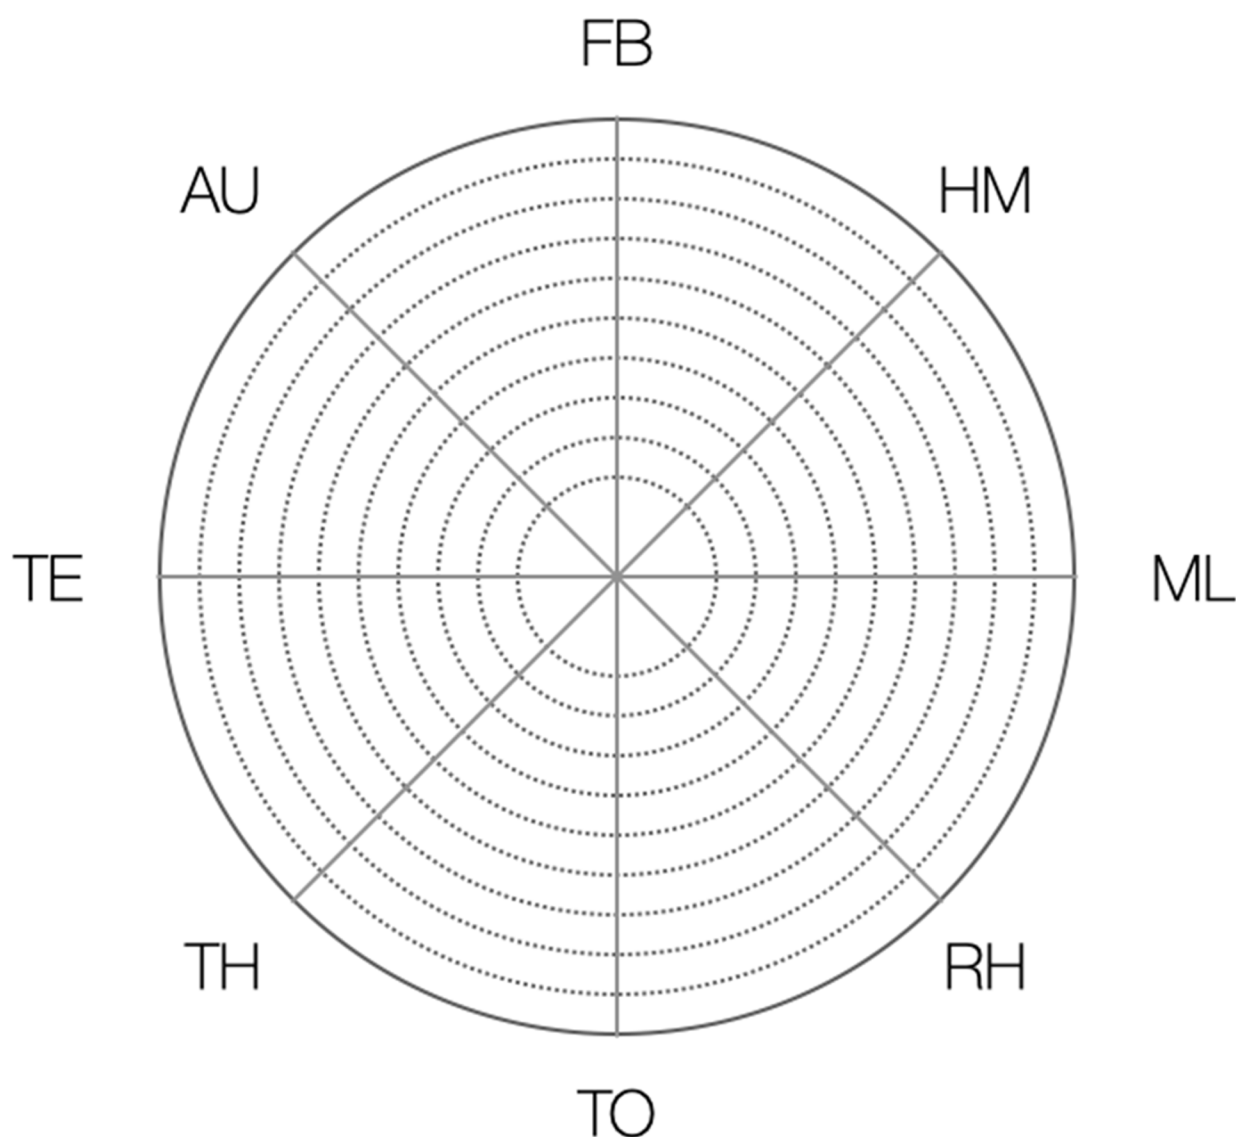

- 1. You struggle to hear chord qualities, progressions and melodies.
- 10. You can pick up new chord progressions and melodies fast and easily reproduce them on the guitar.
